The restoration included the complete painting & decorating of this beautiful Church. New colors and decorative effects were introduced to highlight the architectural design of all beams. All stained glass windows were washed and polished.

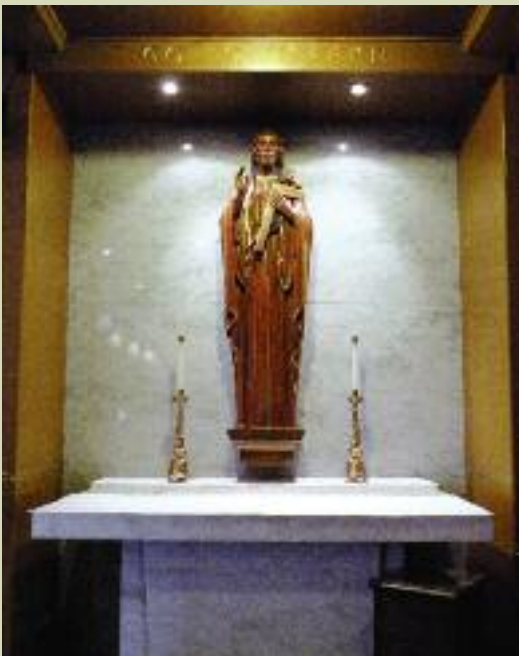

Holy Name of Mary - Valley Stream, New York

Rev. Msgr. Thomas J. Harold, Pastor

The stained glass window frames were restored from both the interior and exterior. The existing lighting fixtures within the main nave of the Church were restored and new side ceiling nave recessed lighting was introduced replacing existing fixtures. A complete new lighting system was introduced within the Sanctuary as well as a state of the art Dimming System to control all lighting throughout the Church. The Sacristy was restored to original in regard to painting and woodwork; restoration of existing decorative effects as well as new decorative effects was completed. The Confessionals were completely redesigned to accommodate the penitent and priest in a spacious atmosphere much to the delight of all involved. All interior and exterior doors were completely refinished including hardware and re-painted to original color. A complete new background design using botticino marble was provided for the existing Blessed Mother Statue. To establish unity, a wood wainscot was applied to all Church columns conforming to the woodtone color of the pews. A new oak Celebrant Chair was fabricated with marble accents. All pedestals and statues were restored to original. The solid color wood carved Stations of the Cross were polychromed to increase their aesthetic beauty.
